Berkeley, CA, April 25, 2009 – More than 640 *Architects & Engineers for 9/11 Truth* (AE911Truth) are calling for a new, independent investigation into the destruction of the World Trade Center high-rises. These building professionals cite evidence of explosive demolition at all three WTC high-rises on 9/11 and document the evidence at their website. Michael Heimbach, assistant director of the FBI's counterterrorism division, wrote that their claims and conclusion were “backed by thorough research and analysis.”<sup>1</sup>

AE911Truth will host exhibitor's information booth #2609<sup>2</sup> at this year's annual convention of the prestigious American Institute of Architects (AIA). The convention,<sup>3</sup> with more than 800 exhibitors and more than 20,000 participating architects, will take place in San Francisco's Moscone Center, April 30-May 2.

This exhibition will be followed up on Saturday May 2nd with a dynamic multi-media presentation by AE911Truth founder Richard Gage, AIA. Mr Gage will cover the forensic evidence found at the crime scene as well as a review of the omissions in the official FEMA and NIST reports. Join AE911Truth at the Westin Market Street Hotel at 50 Third St. in San Francisco at 4:00 pm on Saturday for this thorough review of the myth-shattering information.

Time magazine acknowledged<sup>4</sup> in 2006 that the 9/11 Truth movement was not a “fringe phenomenon,” but “a mainstream political reality.” As well, Architects & Engineers for 9/11 Truth petition signers<sup>5</sup> have been encouraged by President Obama's promise to “restore science to its rightful place.”

Join AE911Truth at booth #2609 to review the startling evidence not reported in the media or by agencies in charge of the investigations.
